

Blind Side Loop Ties

One-Sided Forming Hardware

SFTL Blind Side Loop Tie

One-piece hook ties: connect to Stay-Form® with one hand

Steel Dog® Blind Side Ties are one-piece ties, with attached rebar hooks, to provide a fast way to connect your formwork to the rebar studs on Stay-Form® blind side walls.

FEATURES:

- Fixed length--no cutting of coil rod required
- NO SEPARATE NUTS OR OTHER FASTENERS REQUIRED.
- Ready to install "out of the box." Each tie comes with attached rebar hook.
- Attach to up to #8 rebar (with optional RH-48 Rebar Hook)

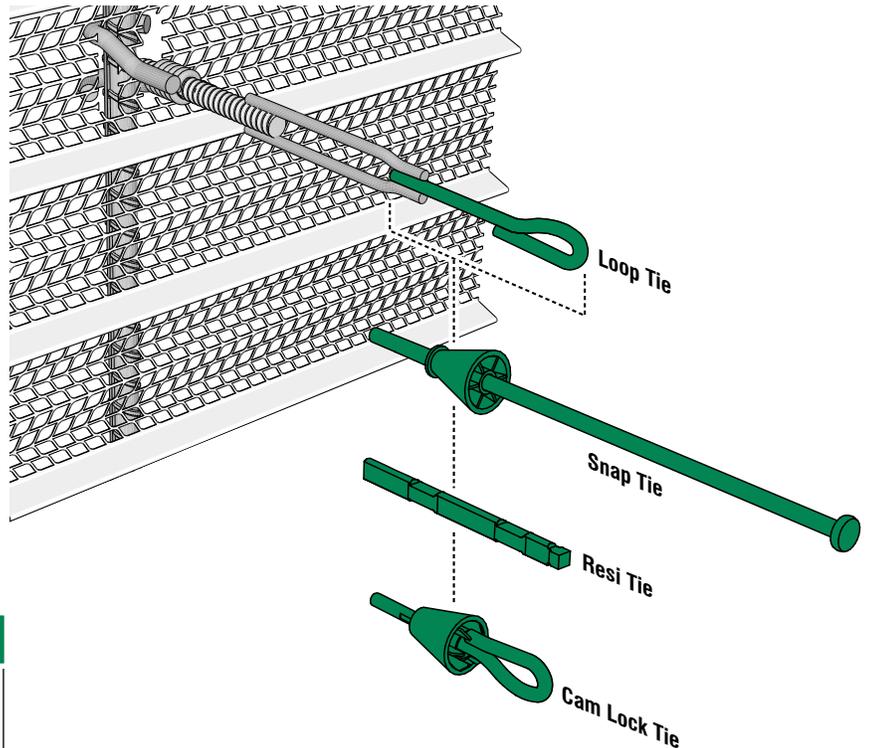

MATERIAL: Carbon steel. Available in stainless steel on special order.

FINISH: None. Electroplated zinc, galvanized, and epoxy finishes available: consult factory.

MAXIMUM SAFE WORKING LOAD: See chart

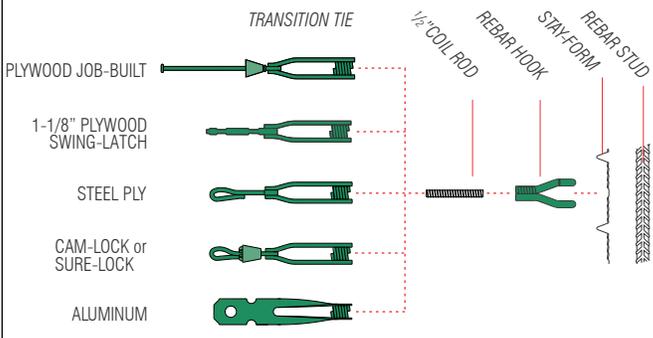

APPLICATIONS:

- Stay-Form® blind side walls

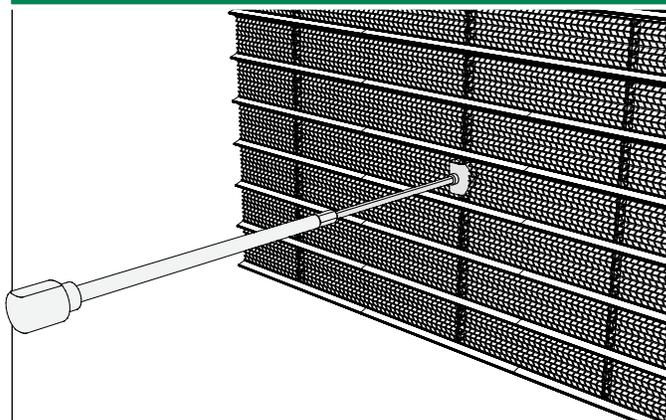

Make-your-own tie Alternative to One-Piece Ties

Assembly required on site. Alternative to One-Piece Stayform Ties.

Cut Slits in Stay-Form in Seconds with Steel Dog® Harpoon Tool
